

Evaluating Immersive Experiences

Notes for the SIT-DP module: **Developing Immersive Applications**

Created by: Chek Tien TAN

**Who has watched the pre-class
YouTube video? (there is no penalty for
saying no 😊)**

① Start presenting to display the poll results on this slide.

Who are we?

- Chek is a researcher in (Immersive) HCI
- Yet is the Head of Solutions Architect from Meta
- Sean is a Solutions Architect from Meta
- Mud runs a startup in blockchain games and AI, and experience in building XR games
- Jian Jie is a current Senior who has taken this module before.

Centre for
IMMERSIFICATION

[recap] Dimensions of RV Continuum

- EWK is how much system understands the real world
- RF is how realistic the assets are
- EPM is how interaction affords realism

<https://doi.org/10.1117/12.197321>

[recap] Revisiting the RV Continuum

- combined the RF and EPM into IM (our THE article came before this 😅)
- added CO to represent the user
- note that this but one academic paper
- common perception of MR is different

<https://doi.org/10.3389/frvir.2021.647997>

Which of the following describes immersion from a systems perspective?

• Wide POV

• Higher spatial presence

• higher place illusion

• 8K resolution display

• lower cybersickness

① Start presenting to display the poll results on this slide.

• ^{degree of freedom} 6 DOF inside-out tracking

slido

Which of the following describes immersion from an experiential perspective?

- Wide POV

- Higher spatial presence

- higher place illusion

- 8K resolution display

- lower cybersickness

① Start presenting to display the poll results on this slide.

- 6 ^{degree of freedom} DOF inside-out tracking

What experiential constructs were analysed in the user study in the paper on "Exploring Gameplay Experiences on the Oculus Rift"?

* participants filmed
playing game

- Flow
- Presence
- Place Illusion
- Plausibility Illusion

① Start presenting to display the poll results on this slide.

slido

Please download and install the Slido app on all computers you use

What quantitative data was analysed in the user study in the paper on "Exploring Gameplay Experiences on the Oculus Rift"?

- Flow

- Presence

- Cybersickness

- Physiological measures

① Start presenting to display the poll results on this slide.

- User behaviors

slido

Please download and install the Slido app on all computers you use

What quantitative data was analysed in the user study in the paper on "Understanding User Experiences Across VR Walking-in-place Locomotion Methods"?

• Flow

• Presence

• Cybersickness

• Physiological measures

① Start presenting to display the poll results on this slide.

• User behaviors

slido

Is the VR version more immersive than the desktop version of my app?

What are appropriate types of data to answer this research question?

- observations
- think-aloud experiences
- validated questionnaire
- post-experience interviews
- physiological sensing
- telemetry

① Start presenting to display the poll results on this slide.

slido

what user experiences does the VR classroom intervention afford during the class?

What are appropriate types of data to answer this research question?

- observations

- think-aloud during the experience

- validated questionnaires

- post-experience interviews

① Start presenting to display the poll results on this slide.

- physiological sensing

- telemetry

Which of the following is NOT a
symptom of cybersickness?

- blurred vision
- eyestrain
- giddiness
- loss of self-consciousness

① Start presenting to display the poll results on this slide.

- vertigo

slido

Please download and install the
Slido app on all computers you use

"This one feels dizzy than the previous one. "
- What dimension of cybersickness is this?

- disorientation

- nausea

- oculomotor

- involvement

① Start presenting to display the poll results on this slide.

- realness

slido

Please download and install the Slido app on all computers you use

"I find it very straining on my eyes to look at stuff in the scene after a short while" - What dimension of cybersickness is this?

- disorientation

- nausea

- oculomotor

- involvement

① Start presenting to display the poll results on this slide.

- realness

slido

Please download and install the
Slido app on all computers you use

Which cybersickness questionnaire is best when I
need to use the results to inform v2.0 development
of my VR application?

- SSQ

- VRSQ / CSQ

① Start presenting to display the poll results on this slide.

slido

Please download and install the
Slido app on all computers you use

**Which cybersickness questionnaire should I use
when I need to compare my results with a pool of
prior research studies from others?**

• SSQ

• CSQ

• VRSQ

① Start presenting to display the poll results on this slide.

slido

Please download and install the Slido app on all computers you use

What is the type of experience being described here?

• Presence

• Flow

• CybercZlness

① Start presenting to display the poll results on this slide.

slido

Please download and install the Slido app on all computers you use

What is the type of experience being described here?

• Presence

• Flow

• CybercZloness

① Start presenting to display the poll results on this slide.

What is the main affordance on a haptic glove for an experienced VR user?

- reach out to touch things in a virtual environment

- pick up the controller to interact with the virtual environment

① Start presenting to display the poll results on this slide.

- wave hand in the air

- hug another character in the virtual environment

slido

Please download and install the Slido app on all computers you use

Which design provides the right affordance for a door that is meant to be pushed?

- Door with a large handle
- Door with a small handle
- Door with no handle and a flat metal plate
- Door with a twist knob
- Door with large sign that says "PUSH"

① Start presenting to display the poll results on this slide.

slido
